

Title of Event- FMFP-2023 Conference: The 10th International and 50th (Golden Jubilee) National Conference on Fluid Mechanics and Fluid Power - 20-22 December 2023

Date of start of event- 20 December 2023

Details of event- The 10th International and 50th (Golden Jubilee) National Conference on Fluid Mechanics and Fluid Power will be held at the Indian Institute of Technology Jodhpur, Rajasthan, India. This conference is organized every year since 1969 at different venues in India with the guidance of National Society for Fluid Mechanics and Fluid Power (NSFMFP). The primary aim of this conference is to provide a platform and bring together the experts around the world to share the state-of-the-art information on various fluid mechanics and fluid power related topics. The society aims to disseminate and propagate knowledge in the fields of fluid mechanics in the country and to play a lead role in training the new teachers engaged in teaching of fluid mechanics and allied subjects. Apart from the conference, NSFMFP also organises various workshops focusing on the fluid mechanics research methodologies. The main role of these workshops is to train the young talented minds and inculcate the research interest in both Undergraduate and Postgraduate levels in the domain of the fluid mechanics.
