INDIAN INSTITUTE OF TECHNOLOGY JODHPUR

Request For Technical Information and Pro Forma Quotations

For Procurement of Electrical Machines/Drives Set-ups with Controllers and DAQs (IM, DC, SM)

1. Introduction

The Indian Institute of Technology Jodhpur (IIT Jodhpur) intends to procure **Electrical Machines/Drives Set-ups with Controllers and DAQs (IM, DC, SM)** for academic and research purposes.

Before initiating the formal procurement process, the Institute invites **Technical Information and Indicative Pro Forma Quotations** from eligible Original Equipment Manufacturers (OEMs) or their authorized representatives.

2. Purpose

The objectives are to:

- Obtain technical information from prospective OEMs/authorized representatives.
- Obtain indicative Pro forma quotations for estimating the procurement cost.

3. Disclaimer

This document is issued **only for obtaining technical information and indicative Pro Forma quotations**.

Submission of information under this proposal:

- shall **not** be treated as a financial bid;
- shall **not** constitute any commitment on the part of IIT Jodhpur to procure the equipment;
- shall **not** confer any right upon the participating firm for award of any future contract;
- shall **not** automatically qualify the responding firm for participation in any future tender.

The Institute reserves the right to modify the technical specifications, estimated cost, procurement methodology, or procurement timeline based on its requirements.

4. Equipment Details

- Name of Equipment: Electrical Machines/Drives Set-ups with Controllers and DAQs (IM, DC, SM)
- Quantity: 03 nos.

Indian Institute of Technology Jodhpur

- **Broad Functional Requirements (The essential functions or capabilities that the equipment should have, without mentioning a specific make, model, or brand):**

*The Indian Institute of Technology Jodhpur intends to procure **three independent Electrical Machines/Drives Set-ups**, namely **Induction Machine (IM)**, **DC Machine (DC)** and **Synchronous Machine (SM)**, for teaching, laboratory instruction, student projects and advanced research in electrical machines, electric drives and power electronic control.*

Each set-up shall be a complete laboratory platform comprising the electrical machine, loading arrangement, power electronic converter, real-time controller, data acquisition system, instrumentation, software and all associated accessories required for conducting experiments on machine characteristics, variable-speed operation, drive control, energy conversion and advanced control algorithms.

The proposed laboratory shall support undergraduate and postgraduate teaching as well as sponsored research in electric drives, industrial automation, renewable energy integration and modern power electronic applications. The system shall preferably be modular and expandable to facilitate future integration with renewable energy systems, microgrids and Hardware-in-the-Loop (HIL) platforms.

The broad functional requirements are indicative and may be modified by the Institute after evaluation of the technical information received from prospective suppliers.

Sl. No.	Parameter	Broad Functional Requirement
1	System Configuration	Three independent Electrical Machines/Drives Set-ups comprising Induction Machine (IM), DC Machine (DC) and Synchronous Machine (SM) laboratory platforms.
2	Machine Systems	Laboratory-scale induction, DC and synchronous machine systems with suitable ratings for teaching, laboratory instruction and research applications.
3	Mechanical Loading System	Suitable dynamometer/loading arrangement for each set-up with provision for speed and torque measurement.
4	Power Electronic Drive System	Power electronic converter-based drive systems for variable-speed operation, starting, braking and speed/torque control of the respective machines.
5	Control Platform	Real-time digital controller with suitable analog/digital I/O and standard communication interfaces for implementation and validation of electric drive control algorithms.
6	Data Acquisition System	Integrated real-time data acquisition system for acquisition, monitoring, recording, visualization and export of electrical and mechanical parameters.

Indian Institute of Technology Jodhpur

☎ 0291-2801352 | ✉ office_ee@iitj.ac.in

Website: Department: <https://www.iitj.ac.in/electrical-engineering/> | IITJ: www.iitj.ac.in

7	Sensors & Instrumentation	Suitable voltage, current, speed, torque and position sensors together with signal conditioning and instrumentation required for complete operation of the laboratory.
8	Auxiliary Equipment	Necessary power supplies, isolation arrangements, autotransformers (where required), switching, protection and associated accessories for safe operation of the set-ups.
9	Software	Integrated software for configuration, control, monitoring, data acquisition, visualization, experiment management and performance analysis.
10	Engineering Workstations	Three OEM-recommended engineering workstation(s) suitable for system configuration, controller programming, data acquisition and engineering analysis.
11	Expandability	Provision for future integration with renewable energy systems, advanced power electronic converters, microgrid laboratories and Hardware-in-the-Loop (HIL) platforms.
12	Installation & Support	Complete supply, installation, testing, commissioning, documentation, onsite training and minimum three-year comprehensive onsite warranty with after-sales technical support in India.

5. Eligibility Criteria

Interested firms should:

- Be an Original Equipment Manufacturer (OEM) or an authorized distributor/dealer.
- Have experience in supplying similar equipment.
- Have adequate installation and after-sales service support in India.

6. Information/Documents to be Submitted

The interested firms shall submit the following (*Annexure-I*):

1. Company Profile.
2. Details of the OEM.
3. Product Brochure/Catalogue.
4. Detailed Technical Specifications.
5. Compliance with the Broad Functional Requirements.
6. List of previous users/clients with installation reports
7. Details of Warranty.
8. Details of After-Sales Service Support.
9. Authorization Letter from OEM (where applicable).
10. Any additional technical information relevant to the offered equipment.

7. Pro forma Quotation

- Interested firms are requested to submit a Pro forma Quotation (*Annexure-II*) along with their Request For Technical Information and Pro Forma Quotations

Indian Institute of Technology Jodhpur

N.H. 62, Nagaur Road, Karwar, Jodhpur - 342030, Rajasthan (India)

☎ 0291-2801352 | ✉ office_ee@iitj.ac.in

response. Indicative **Pro Forma** quotation in Indian Rupees (INR), including the cost of the equipment, essential accessories, taxes, duties, freight, insurance, installation, commissioning, training, and any other associated charges. Wherever applicable, the Annual Maintenance Contract (AMC) and/or Comprehensive Maintenance Contract (CMC) charges and spare parts shall be quoted separately as additional charges.

- Expected delivery schedule and other relevant technical and commercial information.

Important Note:

- The **Pro Forma** quotation is required only for cost estimation and budget planning purposes.
- The prices quoted shall be indicative/non-binding.
- The Pro Forma quotation shall not be treated as a financial bid.
- Submission of a **Pro Forma** quotation shall not confer any right or preference in the subsequent procurement process.

8. Presentation/Demonstration

The Institute may invite for a technical presentation or product demonstration. The date and venue shall be communicated separately.

9. Submission:

Interested firms may submit their Proforma Quotations on or before the due date in sealed cover or through email (as applicable).

The envelope/email should be superscribed as:

"Request For Technical Information and Pro forma Quotations for Procurement of Solar Array Simulator"

8. Important Dates

Activity	Date
Publication	18 th July 2026
Last Date for Submission	31 st July 2026
Technical Presentation (if required)	To be informed
Clarification Meeting (if required)	To be informed

10. General Terms & Conditions

1. This **Request for Technical Information and Pro forma Quotations** is issued only for obtaining technical information and **Pro Forma** estimates.
2. The Institute reserves the right to accept or reject any or all responses without assigning any reason.

3. Submission of a **Request for Technical Information and Pro forma Quotations** does not create any contractual obligation.
4. The Institute may seek additional information, technical clarifications, demonstrations, or presentations from any participant.
5. The Institute may modify the technical requirements based on the responses received.
6. The final technical specifications may be prepared by the User Committee after evaluating all **Request for Technical Information and Pro forma Quotations** responses.
7. The subsequent procurement, if any, shall be carried out through an appropriate procurement method in accordance with the GFR 2017 and applicable procurement rules.
8. Participation in this **Request for Technical Information and Pro forma Quotations** does not automatically entitle any firm to participate in or receive any preference during the subsequent tender process.
