(b) *Make-up Examinations*

No make-up examinations are admissible for any reason. But, if a student fails to appear in any examination (two mid-semester and one end semester examinations) for a genuine reason (such as illness), she/he may make a request to AC for a make-up examination within two days of the date of the scheduled examination; a certificate shall be furnished from the Medical Officer of the Institute Health Center, when illness being the reason for absence from the examination. In such cases, the marks obtained in the other elements of evaluation shall be prorated for the examination missed. When two examinations are missed in a course, the prorating is done for only one examination; the marks in the other examination shall be taken as zero.

5.4 Grading System

(a) *Grades and Grade Points*

At the end of the semester, a student is awarded a *relative* letter grade in each course by the Instructor offering the course considering the performance of the student during the semester with respect to those of the other students registered in the course. Five regular letter grades, namely A, B, C, D and F shall be awarded in each course for M.Tech. students. Each letter grade is associated with a numerical equivalent on a 10-point scale (called *Grade Point*) shown in Table 5. The grades shall be submitted to the AC within 72 hours after the end semester examination.

A student is awarded 'I' grade in a course, when the student fails to appear in the end-semester examination for a genuine reason. The student shall appear for a make-up examination within the first week of the next semester and seek to convert the 'I' grade into one of the regular grades, at least one day before the last date of add drop in the next semester. Any 'I' grade remaining after this date shall be converted automatically into an 'F' grade.

An M.Tech. student securing a D grade in any of the courses will have to either repeat the course (if the course is a compulsory course) or repeat/substitute it with another relevant course (if the course is an elective course).

Signature

(b) Change of Grade Already Awarded

Normally, a letter grade once awarded shall not be changed. Only in exceptional circumstances, the Senate may allow the required change.

Table 5: Grades awarded to M.Tech. Students in each Post-Graduate course

Table 5: Grades awarded to M.Tech. Students in each Post Graduate Semester

3	C	6	Average	
4	D	4	Satisfactory	
5	F	0	Unsatisfactory	
6	I	-	Incomplete	
7	S	-	Acceptable	These grades are given for performance in the M.Tech. Thesis work. If a student earns X grades for M.Tech. Thesis in any semesters, the M.Tech. Program of the student shall be terminated immediately thereafter.
	X	-	Unacceptable	
8	W	-	This grade indicates that a waiver granted for a course at IIT Jodhpur due to courses credited and/or work done at a institute or University elsewhere. All such courses and/or requirements will be deemed to carry zero credits for SGPA/CGPA calculations.	
9	Y	-	This grade indicates that the student has withdrawn from a course after the add-drop date with the permission of the Course Instructor, and with subsequent approval from the Academic Committee. All such courses and/or requirements will be deemed to carry zero credits for SGPA/CGPA calculations.	

5.5 Grade Point Averages

The Semester Grade Point Average (SGPA) is a weighted average of the grades earned by a student in all the courses credited by her/him and reflects her/his academic performance in the respective semester. If the grade points associated with the letter grades earned by a student in N courses registered during a semester are G_1, G_2, \dots, G_N , and the corresponding credits C_1, C_2, \dots, C_N , then the SGPA is given by

$$SGPA = \frac{C_1G_1 + C_2G_2 + \dots + C_NG_N}{C_1 + C_2 + \dots + C_N}$$

1	What is the maximum time period of project person deputed through Dean SRIC in any IIT?	There is no SRIC at IIT Jodhpur
2	Which type of house/category, Project Assistant eligible for?	In case of Project Assistant, as per R&D norms clause 5.4(d)-9 is applicable: "House Rent Allowance: Consolidated salary offered for the project post is inclusive of all components of the salary. No additional HRS is payable under any project, including the Institute Projects. But, if the sponsoring agency provides funds for the same and it is recommended by the PI that HRA be paid to the Temporary Project Staff Member, then HRA can be given to the Project Staff Members as per directions of the Funding Agency. In the absence of the funding agency not providing any norms, the prevalent Government of India norms are admissible. In any case, the HRA is payable, only if the Temporary Project Staff Member stays outside the campus. The Project Staff Member shall submit the request, duly forwarded and recommended by PI of the project for the reimbursement of rent paid for accommodation, in the prescribed form as available with Office of R&D. In general, the Institute will not provide any accommodation to the Temporary Project Staff Members. But, if Institute provides accommodation to any of them in the Student's Hostels, then: A. A fixed rate (as decided by the Institute from time to time) will be charges as Hostel Charges; B. The Temporary Project Staff Members will not be paid any HRA, if any, and the HRA component admissible to the Temporary Project Staff Membeders from the funding agency, will be deducted from the Project Account and will be credited to the Institute Account.
A	Can any department or IIT transfer any permanent change from a permanent employee of the institute to the Project assistant deputed through Dean SRIC	Query not clear
B	Can any department or IIT take permanent works like duties of AE, JE, or others work with full signing authorities or charges of T&P permanent asset opf the institute from project staff?	No such information is available on record

1	Whether any Laboratory exists (across India) to live demonstrates the 1 to 4 Laws of Thermodynamics. If yes please give details, that what is the method to demonstrate these four laws of thermodynamics	There is no existing Laboratory exclusively for the live demonstration of four laws of thermodynamics at IIT Jodhpur. However, there are laboratory exercises involving calibration of thermometers and determination of efficiencies of mechanical and electrical machineries that can be intrinsically related to the zeroth, first and second laws of thermodynamics
2	Whether a particular chapter is particularly/purely based on the Flywheel energy storage and/or Flywheel power multiplication and/or Flywheel Power Generation. If yes so please provide the details about the chapter, book and its author	Experiments associated with flywheels are beyond the scope of the thermodynamics course syllabus offered at the Institute. The syllabus of Thermodynamics can be found in the PDF file (Page 7) available at the following link. https://iitj.ac.in/uploaded_docs/List%20of%20Institute%20wide%20common%20courses%20and%20course%20contents%20from%202nd%20year%20onwards_31082020.pdf
3	How to explain/justify: i. Law 1 of the Thermodynamics with Flywheel? ii. Law 2 of the Thermodynamics with Flywheel iii. Law 3 of the Thermodynamics with Flywheel iv. Law 4 of the Thermodynamics with Flywheel How to explain/justify: i. Law 1 of the Thermodynamics without Flywheel? ii. Law 2 of the Thermodynamics without Flywheel iii. Law 3 of the Thermodynamics without Flywheel iv. Law 4 of the Thermodynamics without Flywheel Note:- With flywheel-based equations - Surface Speed, Inertia Angular Momentum, and with the different Diameters, RPMs and Weights	Claims regarding the violation of four laws of thermodynamics and constructing perpetual motion machines of first and second kind (PMM1, PMM2) have been attempted by many individuals over the past three centuries, and all these claims turned out to be false when it came to the demonstration of these machines. Mechanical energy storage in the form of inertia (as in the case of flywheel) and its usage is greatly subjected to the irreversibility associated with friction losses; hence, the violation of four laws of thermodynamics is highly unlikely.
4	Referring to the below mentioned examples (marked as one and two):- 1. Why Inertia is different? 2. Why the Angular Acceleration is different? 3. Why the Surface Speed is different? 4. Why the Twisting Turing Force is different? 5. Why the Angular Momentum is different? As such again referring to the below mentioned (marked as one and two):- 1. What is the difference between the Disk and Torus Flywheel Design? 2. How to correlate these aspects with Thermodynamics? Example One: If 1 meter of Diameter, 300 tons were absorbed onto the design of the Flywheel and rotate at the Speed of 1000RPM Example two:	

	In 8 meters of Diameter, 300 tons were absorbed into the design of the flywheel and rotate at a Speed of 1000 RPM	
5	Is it possible perpetual motion machine, whether it is possible or not please provide details?	
6	Under which circumstances these 4 laws has been enacted/established and by whom it has been made and enacted/established, in which year it has been developed enacted/established. Whether it is applicasble in 2021. Is it evergreen, does it have any future scope? Whether yes or no please provide details For what reason thermodynamics laws were framed.

	Many of the autonomous institutions like IIMs, NITIE, XLRI, MDI, SP Jain, IMI, IMT etc have been awarding diplomas like Post Graduate diploma in Business Management and Fellow Programme in Management in the space of Higher Education in Management. These programmes which are approved by AICTE, often seek equivalence from Association of Indian Universities (AIU)	
1	Is there an office order from the Central Government of India that empowers AIU to grant equivalence of these AICTE approved programmes which are one year, and granted equivalence to masters and doctoral programmes respectively or does AIU grant equivalence independently by interpreting AICTE rules based on the understanding of the governing body of AIU	No such information available on record
2	If answer to the first question is yes, please share the related notifications that empowers AIU as a statutory body to recognize diplomas as equivalent to degrees in the space of management education	Not applicable
3	Is AIU equivalence a mandatory requirement for hiring in appropriate faculty positions in institutions like IITs, NITs and IIMs at the faculty level, if the programme undertaken by the individual is approved by AICTE	The candidate must have a valid PhD Degree or equivalent form a recognized university/institution
4	If the answer is yes to question 3, please share the related office orders for this hiring norm or guideline that IITs/IIMs/NITs may be expected to follow	Not applicable
5	For all publications that may be considered for faculty selection processes in higher education institutions in management education, is Scopus indexing and Web of Science indexing a necessary parameter defined from the ministry of higher education.
